

As an independent, family run business we have considered with great concern the actions we must take in order to not only protect our team but also our guests when visiting one of our five pubs.

Internally, we have heightened our already stringent systems in place, as well as implemented new additional procedures in response to the COVID-19 virus in order to provide a safe, clean & hygienic environment to work & dine in as is possible.

Our teams are now sanitising all door handles & push plates in the pub & toilets every 2 hours throughout the day with an industry approved sanitiser.

Whilst staff already frequently hand wash & sanitise hands throughout the day we are now closely monitoring these systems to ensure they are carried out above and beyond the standard requirement.

Hand gel is provided at the front entrance for all guests on arrival & throughout their visit.
Antibacterial soap is provided in the toilets.

Our staff are following current government guidelines on hygiene and self-isolation.

We appreciate your loyalty & hope that you will understand that we are doing our utmost to provide an environment where you feel comfortable & can enjoy our food, drink & service. At this time, more than ever, could we ask that you notify us if you have a reservation that you can no longer attend, so we can adjust our ordering and staffing levels accordingly

Any concerns please do contact us direct, we would appreciate your feedback or advice going forward in what is going to be some difficult times and if staying in, please make use of our take away food and wine options.

Team Little Britain
